

All of the praises are for the Lord of existence and may the prayer and peace be upon the most noble of the Prophets and Messengers to proceed:

We are Muslims from the lands of America, Great Britain, Canada, and other English speaking countries. We all came from our faraway homelands to this abode (Darul Hadeeth Dammaaaj) for the purpose of studying the affairs of the religion of Al-Islaam. We are free from the ways of oppression, offensive aggression, and wrong doing that which is found in the ways of the many sects (such as Al-Qaeda and the likes as it is well known). This is the path we remain steadfast upon (seeking beneficial knowledge and doing righteous actions). The Raafidhah (the Houthis) have attacked us and have sieged (surrounded) Daarul Hadeeth Dammaaaj. They have also prevented the entering of food and medicine for us, our women and our children. With this we have confronted their actions with patience and in return they have carried out attacks upon us (machine gun fire and tactical sniping night and day), treacherously and oppressively killing some of the students (from them a pregnant young woman). This is the situation that remains until this day- the 28 day of Dhul Hijrah 1432/ November 24, 2011.

We are upon a significant faith, reliance, and certainty that verily Allah the Mighty the Majestic will make a way out for us and relieve us of this hardship. This letter is for the purpose of clarity and information.

All of the praises are for the Lord of existence
